SUMMARY

An Information Technology undergraduate in the fifth semester at Brawijaya University, focusing on front-end web development. I have two years of experience building responsive and intuitive web interfaces, working with clean code, and collaborating in team environments. I enjoy turning ideas into usable features and creating smooth experiences across devices.

EDUCATION

Faculty of Computer Science, Brawijaya University Malang
Bachelor of Information Technology | GPA: 3.91 / 4.00 2023 - Present

ORGANIZATION

Eksekutif Mahasiswa Universitas Brawijaya Malang
Expert Staff - Communication and Information Center March 2025 - Desember 2025
• Developed and maintained the front-end of the official website of Eksekutif Mahasiswa 2025 using modern web technologies. (Next.js, Tailwind CSS, GraphQL, Typescript, Framer Motion).
• Mentored internship staff in SDGs-related web projects, focusing on development fundamentals and teamwork.

EXPERIENCE

Faculty of Computer Science, Brawijaya University Malang
Lab Assistant – Web Application Programming September 2025 – Desember 2025
• Conducted practicum sessions for 21 students over one semester (≈4 months), delivering materials on HTML, CSS, JavaScript, PHP, and Laravel.
• Reviewed practicum modules, assigned tasks, and assessed student submissions and overall performance.

ACHIEVEMENT

1st Place – Web Design Competition, Teknovistafest, Universitas Airlangga, 2024

Contributed as a Front-End Developer in a team project called “Kenal Batik”, an interactive web platform introducing Indonesian batik culture with gamification features such as quizzes and experience points (React.js, Tailwind CSS, RESTful API, and React libraries).

SKILLS

Soft Skills

Problem Solving, Team Collaboration, Time Management, Adaptability, Continuous Learning

Technical Skills

React.js, Next.js, Typescript, Tailwind CSS, RESTful API, GraphQL, Git (Github)
